

711433, In-Car Mounting Bracket for Insignia 2014

- Unclip the moulding that traverses the glove box and the left side of the console; start in the upper corner and pull upwards when unclipped, to release the locking tab at the base of the trim
- Locate the bracket against the inner fascia at trinket tray level. Pre drill 2 x 3mm holes
- Affix the bracket with two self-tapping screws and refit all panels
