

71180, In-Car Mounting Bracket for Toyota Land Cruiser J120 LC2/3/4/5 - 2003 Vent

- Unclip the side panels of the fascia panel
- Unclip the air vent ducts on each side of the radio
- Remove the four 10mm bolts securing the fascia framework
- Lever out the assembly, and insert one arm into the upper right corner of the radio recess and the other arm over the top of the fascia panel
- Locate the bracket with upper right bolt and adhere the upper arm with the double sided tape
- Refit the parts in reverse order
